

# PDQ Signature Systems

## COMPARISON CHART

### THE POINT OF SALE

#### The Others

#### PDQ POS

PLATFORM?

Typically, an Android or iOS-based tablet that relies on uninterrupted cloud access...

A highly scalable, secure Microsoft centric platform that harnesses the cloud, but is not dependent on it...

DESIGN?

Many POS providers are either payment processors or startups that do not have the extensive design experience that PDQ has...

Intuitively designed for ease-of-use and speed, PDQ POS has been easy to learn, operate and manage for 34+ years...

### DEVELOPMENT

#### The Others

#### PDQ POS

IN-HOUSE?

Development may be outsourced to independent contractors outside of the USA..

All of our expert developers are W2 employees, under one roof in our 40,000 sq.ft. PA-based headquarters...

INTEGRATIONS?

May or may not perform required integrations; may or may not include documentation & project management...

We do all required integrations with RESTful APIs, full documentation & expert project management...

### SUPPORT

#### The Others

#### PDQ POS

IN-HOUSE?

Support may be outsourced to independent contractors outside of the USA..

Our live, in-house, domestic team of support technicians are available 24x7x365, without exception!

MENU MGT.?

Menu management is typically provided as a fee-for-service...

Our one support agreement provides for on-demand menu management at no extra cost!
